

NEWS RELEASE

West Fargo, North Dakota - Friday, July 17th 2020

Vector Control Board

Dr. Tim Mahoney MD
Clay Whittlesey
Dr. Joe Rinehart PhD

Ben Prather
Director

Cass County Vector Control has scheduled **AERIAL SPRAYING** for elevated mosquito nuisance in the following communities on the day(s) listed, weather permitting:

Monday, July 20th, 2020 8:00 PM

City of Fargo, City of Moorhead, City of West Fargo

Please note: a pre-application flight will occur 6am on 7/20/20 to survey the flight path for obstructions. No pesticide is applied at that time.

The active ingredient in the ULV (Ultra Low Volume) spray is permethrin. These insecticides are labeled for use in residential areas and are found to be non-toxic to humans and pets.

More information on these products is available at:
