

## NEWS RELEASE

West Fargo, North Dakota - Tuesday, July 21st,  
2020

### Vector Control Board

Dr. Tim Mahoney MD  
Clay Whittlesey  
Dr. Joe Rinehart PhD

Ben Prather  
Director

Cass County Vector Control has scheduled **TRUCK MOUNTED SPRAYING** for elevated mosquito nuisance in the following communities on the day(s) listed, weather permitting:

**Wednesday July 22nd, 2020 8:30 PM**  
Rural Cass Cities and Major Subdivisions

The active ingredient in the ULV (Ultra Low Volume) spray is permethrin or etofenprox. These insecticides are labeled for use in residential areas and are found to be non-toxic to humans and pets.

More information on these products is available at:
