No building or structure shall be moved into Davenport Township from any place outside the township or wholly within the township from one lot or parcel to another, or from the township to a point of the township without first making application to the Zoning Administrator and securing a permit therefore as hereinafter provided. A permit fee shall accompany each application for a moving permit.

6.1.2 Buildings Exempted

No moving permit shall be required for moving farm structures of any size. No moving permit shall be required for the moving of any other house, building, or structure or part thereof in size smaller than the following dimension: 8 feet high, 10 feet wide and 15 feet long.

6.1.3 Code Compliance Required

Whether or not a permit is required, no building or structure shall be moved to a location within the township unless it will conform to the building, plumbing, heating, electrical and other construction regulations of the township relating to new structures. If construction, alteration or repair work on such building or structure will be necessary to make it conform to such regulations, permit for such work shall be obtained before such building or structure is moved in the township, which shall make provision for the doing of such work within 90 days after such building or structure is so located.

No such building or structure shall be moved to a location within the township unless it will conform to the zoning regulations of Davenport Township and will be a building or structure of the same general character and appearance as other buildings or structures in the vicinity. If the Zoning Administrator shall be in doubt as to whether such building or structure will sufficiently conform to the character of the neighborhood into which it is proposed to be moved, he may refer the matter to

the Board of Township Supervisors of Davenport Township for determination, or, in the event that the Zoning Administrator refuses or neglects to issue a moving permit, the applicant has the right to petition the Board of Township Supervisors of Davenport Township for a hearing. The Township Supervisors may hold a public hearing on said question and shall determine whether or not such building or structure will be permitted at the proposed location.

6.1.4 Contents of Application

Upon making an application required by these regulations, the applicant shall furnish the Zoning Administrator with such information as he may require relative to the size, location, method of construction and type of building or structure, the equipment proposed to be used in the moving, the length of time that such building or structure will be on the township roads, the days and hours when such moving is to be made, the financial responsibility of the applicant and the insurance protection carried by the applicant. The applicant shall give access to said building or structure to the Zoning Administrator for the purposes of inspection and shall permit the Zoning Administrator to inspect the equipment to be used in such moving. No such application for a moving permit shall be granted by the Zoning Administrator unless such building or structure can be moved with reasonable safety to persons or property within the township. The Zoning Administrator may impose such conditions as are necessary to assure compliance with the regulations of the township and to assure the public safety from injury to persons or property within the township.

6.1.5 Special Condition of Permit

If any conditions are imposed upon the proposed moving operation, said permit shall not be granted until the applicant shall have agreed to and assented to such conditions in writing.

6.1.6 Cash Deposit Required

Before any permit is issued, the applicant shall make a cash deposit with the Zoning Administrator to reimburse the township for any expense incurred in connection with said moving and to guarantee that all rubbish and materials will be removed from premises from which the building or structure has been moved, and that all wells and excavations be filled and leveled to existing grade and left in a safe and sanitary condition. If such conditions with respect to such premises are not met, the Zoning Administrator shall proceed to do the necessary work and charge the cost thereof against the cash deposit. After all work under said permit is completed and after deducting any expenses incurred by the township, any monies remaining in the cash deposit shall be returned to the person making such deposit. If said deposit is inadequate, the applicant shall, by reason of such application and permit, be obligated to pay any such additional expense within 30 days after the completion of said work. The amount of cash deposit or bond shall,

in each instance, be set by the Board of Township Supervisors after inspection of the building to be moved, but said cash deposit or bond shall not exceed \$2,000.00.

6.1.6 Preparation Required Prior to Moving

Before moving any house, or structure, the owner of the premises from which it is moved shall plug the sewer line with a concrete stopper, shut off the water, and pay for all sewer and water service previously provided. The electric, telephone and gas service which might be connected to or with the house or structure shall be removed by the said company.

6.1.7 Displacement of Wires

In every case in which moving operation shall require the displacement of any overhead wires, it shall be performed by the person, firm or corporation owning, operating and controlling such wires. Prior to the issuance of a permit for moving operations which will entail the moving of overhead wires, the applicant shall furnish the Zoning Administrator with satisfactory proof that the displacement of such wires will be made by the person, firm or corporation owning, operating and controlling such wires on the dates and at the times designated for the passage of such house or structure.

6.1.8 Emergency Orders

At any time during such moving operation, the Zoning Administrator may issue any further order, whether of an emergency nature or otherwise, as may be necessary to compel compliance with these regulations, the terms of the application and permit, or to insure the public safety.

6.1.9 Revocation of Permit

Refusal by the permit holder or any person acting on his behalf to comply with the terms or provisions of these regulations or to adopt any safety or precautionary device or method imposed upon such moving operation shall be a violation of these regulations and shall be cause for immediate revocation of the permit.

Land subdivided into more than two lots containing less than forty acres shall each be platted and streets dedicated. Road construction shall be made to conform with township specifications at the cost of the owner.

The Board of Township Supervisors shall confer with the subdivider regarding the type and character of the development that will be permitted in the subdivision and may agree with the subdivider as to certain minimum restrictions to be placed upon the property to: prevent the construction of sub-standard buildings, control of the type of structures, or the use of lots which, unless so controlled, would clearly depreciate the character and value of the proposed subdivision and adjoining property. Deed restrictions or covenants may be included to provide for the creation of property owner's association or a board of trustees for the proper protection and maintenance of the development in the future, provided, however, that such deed restrictions or covenants shall not contain reversionary clauses wherein any lot shall return to the subdivider because of a violation.

Wherever the subdivision contains sewers, sewage treatment plants, water supply system, park areas, street trees, or other physical facilities necessary to or desirable for the public welfare of the area, or that are of common use or benefit which are not or cannot be satisfactorily maintained by any public agency, provision shall be made by trust agreement, a part of the deed restrictions, acceptable to any agency having jurisdiction over the location and improvement of such facilities, for the proper and continuous maintenance and supervision of such facilities.

8.2 Conditional Use Permits

8.2.1 Purpose

The development of these regulations is based upon division of the township into districts, within which district the use of land and building bulk and locations of building and structures are mutually compatible and substantially harmonious. However, there are certain uses which, because of their unique characteristics, cannot be properly classified as permitted uses in any particular district, without consideration, in each case, of impact of those uses upon neighboring premises. Such uses, nevertheless, may be necessary or desirable to be allowed in a particular district provided that due consideration is given to location, development and operation of such uses.

8.2.2 Public Hearing Notice

Shall be the same as the provisions set forth for public hearing notice for zoning district amendment in Section 8.1.1.

8.2.3 Public Hearings

Shall be the same as the provisions set forth for public hearing for zoning district amendment in Section 8.1.2.

8.2.4 Data Submission Requirements

Shall be the same as the provisions set forth for data submission requirements for zoning district amendment in Section 8.1.3.

8.2.5 Deliberation and Decision

- 8.2.6.2 That the uses, values and enjoyment of other property in the neighborhood for purposes already permitted shall be in no foreseeable manner substantially impaired or diminished by the establishment, maintenance or operation of the conditional use.
- 8.2.6.3 That the establishment of the conditional use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district.
- 8.2.6.4 That adequate utilities, access roads, drainage and other necessary site improvements have been or are being provided.
- 8.2.6.5 That adequate measures have been or will be taken to provide ingress and egress so designed as to minimize traffic impact on the area.

8.2.6.6 That the conditional use shall substantially conform to all applicable regulations of the district in which it is located.

8.2.7 Conditions and Guarantees

8.2.7.1 Prior to the decision on any conditional use, the Board of Supervisors may stipulate such conditions and restrictions upon the establishment, location, construction, maintenance and operation of the conditional use as deemed necessary to promote the public health, safety and general welfare of the township and to secure compliance with the standards and requirements specified in Section 8.2.6. In all cases in which conditional uses are granted, the Board of Supervisors shall require such evidence and guarantees as it may deem necessary as proof that the conditions stipulated in connection therewith are being and will be complied with.

8.2.7.2 No alteration of a conditional use shall be permitted unless approved by the Board of Supervisors. Where the Board of Supervisors has approved or conditionally approved an application for a conditional use, such approval shall become null and void within 12 (twelve) months of the date of the Board of Supervisors action unless the use is commenced, construction is underway or the current owner possesses a valid building permit.

Variance from the terms of these regulations as to building height, lot area and yard requirements may be granted provided that the applicant establishes proof of practical difficulty or undue hardship.

8.3.6 Justification

- 8.3.6.1 That the reasons set forth in the application justify the granting of the variance.

8.3.6.2 The variance is the minimum which would make possible a reasonable use of the premises.

8.3.6.3 That the granting of variance will be in harmony with the general purpose of these regulations and will not be injurious to the surrounding premises, neighborhood or the city and will not be contrary to the comprehensive plan and the purposes of these regulations.

8.3.6.4 That there is practical difficulty or unnecessary hardship in use of the premises if the strict application of the regulations were to be carried out.

8.3.7 Authorized Variances

A variance shall not be granted for any yard or setback less than the yard or setback as required by these regulations.

In such case, proceedings shall not be stayed other than by a restraining order, which may be granted by the Board of Township Supervisors, or by a court of record.

8.4.6 Transmittal of Papers

The Codes Administrator or the official whose decision is being appealed shall transmit to the Board of Township Supervisors all papers constituting the record upon which the action appealed is taken.

8.4.7 Review and Action – Board of Township Supervisors

Appeals of Administrative Decisions shall be taken to the Board of Township Supervisors. The Board of Township Supervisors shall grant to the administrative official's decision a presumption of correctness, placing the burden of persuasion of error on the appellant. In exercising the appeal power, the Board of Township Supervisors shall have all powers of the official from whom the appeal is taken, and the Board of township Supervisors may reverse or affirm wholly or partly or may modify the decision being appealed. If the Board of

Township Supervisors determines that it is necessary to obtain additional evidence in order to resolve the matter, it shall remand the appeal to the official from whom the appeal is taken, with directions to obtain such evidence and to reconsider the decision in light of such evidence. A concurring vote of three members of the Board of Township Supervisors shall be necessary to reverse any order, requirement, decision, or determination of an administrative official.
