

NEWS RELEASE

West Fargo, North Dakota - Monday, August 10th

Vector Control Board

Dr. Tim Mahoney MD
Clay Whittlesey
Dr. Joe Rinehart PhD

Ben Prather
Director

Cass County Vector Control has scheduled **truck mounted spraying** for elevated mosquito nuisance in the following communities on the day(s) listed, weather permitting:

Tuesday, August 11th, 2020 7:35 PM
City of Fargo, City of Moorhead, City of West Fargo

The active ingredient in the ULV (Ultra Low Volume) spray is permethrin and etofenprox. These insecticides are labeled for use in residential areas and are found to be non-toxic to humans and pets.

More information on these products is available at:
