

CASS COUNTY GOVERNMENT

PROPERTY TAX SUMMARY

2022 and 2023

**PREPARED BY:
THE CASS COUNTY FINANCE
OFFICE**

TAXING DISTRICTS

A taxing district is an entity that has the power to levy real estate taxes. Cities and townships are examples of mutually exclusive taxing districts - you are either in a city or you are in a township, not both. As a city annexes property or increases in size, the township decreases or loses that land as part of their taxable base. If a city were to dissolve, a township would gain taxable base.

Some taxing districts overlap city and township boundaries. Examples are the county, water resource districts, weed control districts, vector control districts, school districts and rural fire districts.

Some districts overlap city boundaries only if the city does not also have a corresponding district or levy. An example is the weed control. The county weed control levy cannot be levied in a city where a city has an established weed control district.

TAXABLE VALUATION

The **TAXABLE VALUATION** is that value to which the taxation rate is applied to calculate the amount of tax due. An assessor first sets the **TRUE AND FULL VALUE** of each taxable property in the county. For residential and commercial property, true and full is market value. For agricultural property, it's the productivity value. The assessor's values are reviewed by the local city and township boards of equalization. Those values are further reviewed by the county director of equalization who makes recommendations to the county board of equalization. The state board of equalization finalizes these values. The equalization process ensures that like property is assessed equitably across the various city, township and county boundaries.

The **TRUE AND FULL VALUE** is reduced by 50% to arrive at the **ASSESSED VALUE**. The assessed value is then multiplied by 9% to determine the **TAXABLE VALUATION** of residential property. For all other property, the assessed value is multiplied by 10% to determine **TAXABLE VALUATION**.

MILL LEVIES

The county finance office computes the taxation rate that is applied to the taxable valuation of each property. It is customary to refer to the taxation rate in terms of mills. The consolidated mill levy for a property is made up of the individual mill levies of each of the taxing entities where the property is located.

The taxation rate or mills are determined by taking the approved budget of the taxing entity and dividing it by the taxable valuation of that district. For example, the county has a taxable valuation of \$1,269,019,326 for the tax year 2023. The county needs to raise \$35,532,541 from property taxes to operate the General Fund for the fiscal year 2024. The \$35,532,541 is divided by the taxable valuation, \$1,269,019,326 to arrive at a rate of .02800. A mill is 1/1000 of a dollar, so .02800 equates to 28.00 (multiply by 1000).

Below is the tax computation for a residential house located in the City of Fargo and the Fargo School District:

True and full Value of Property	\$100,000.00
Assessed Value (50%)	\$50,000.00
Taxable Value (9%)	\$4,500.00
Consolidated mill levy (from page 8)	296.60
Convert to rate (divide mills by 1000)	.29660
Consolidated Tax levy (\$4,500 X .30150)	\$1,334.70
